

MOTIVE – Brand Copy

MOTIVE

The future of film scoring has a motive.

Powered by Sibyllai™

MISSION STATEMENT

Motive is the composer's intelligence layer — an AI-assisted film music spotting tool that helps you map emotion

Powered by Sibyllai, our narrative-aware AI, Motive analyzes tone, dialogue, and visual rhythm to suggest music

Whether you're replacing temp music, building a custom score, or preparing licensed tracks for delivery, Motive t

This is storytelling by design. This is scoring with intention.

SECTION 2 – What is Sibyllai?

Sibyllai is our narrative-sensing AI system.

She listens to your scenes, reads their rhythm, and suggests how and where music can shape the story.

From tone detection to cue placement — she's your silent creative partner.

SECTION 3 – Why Motive?

- Designed for composers, music editors, and supervisors
- Integrates with DAWs and NLEs
- Generates digital cue sheets with emotional metadata
- Replace temp music with licensed cues in seconds
- Built for sync, scoring, and speed
